Art Unit 1713

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Kobylivker et al.

The rejection as set forth under 35 U.S.C. § 102/103 in Paper No. 4 is deemed proper and is herein repeated.

Applicants' remarks have been fully considered but have been deemed to be not persuasive.

Applicants initially argue the difference in structure between the "tape or sheet" as claimed and the articles as shown by Kobylivker. This is not persuasive. The claim language is of such a breadth so as to clearly be anticipated by the articles shown in Kobylivker. There is nothing claimed with respect to the tape or sheet which would render it patentably distinct from the films and sheets as shown in the prior art. As such, these arguments are not persuasive.

Applicants then argue that the Kobylivker patent is concerned with permanently bonding the tape or sheet to substrates and the instantly claimed adhesive is concerned with the idea of temporarily adhering medical adhesive tape or sheet to an object such as a patient. This is not persuasive. Applicants are arguing limitations which are simply not claimed or reflected in any of the claim limitations. Furthermore, the claimed composition and article resulting therefrom is seen to be anticipated by the articles and the compositions as shown in the prior art. As such, these compositions and articles formulated therefrom would be expected to inherently possess properties which either anticipate or render obvious those as claimed. As such, applicants' attempts to draw a distinction between the permanent coating or adhesive of Kobylivker as compared to the tape or sheet as claimed is found not persuasive.

Art Unit 1713

THIS ACTION IS MADE FINAL. Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
